## PROJECTS

---

### MediQuick - Find Medicines Nearby

- Developed a cloud-based system that integrated multiple pharmaceutical companies, pharmacies and drug stores on one platform allowing them to manage their inventories on our integrated module.
- Progressive web-application allowed end-users (general public) to know the availability of their desired medicines and get easy access to nearby drug stores.
- Implemented a decentralized module on blockchain that served the purpose of keeping track of the medicines being manufactured and distributed, on its immutable ledger.
- Tools: ReactJs, ASP.NET Core, MSSQL Server, Ethereum Blockchain

## DIGITAL SKILLS

---
